

ENVIRONMENTAL PROTECTION AND WASTE MANAGEMENT POLICY

In our business, we protect the environment, prevent its pollution, and attach importance to its protection by reducing our negative effects on the environment.

For this;

- We comply with legal regulations and try to reduce our environmental impact.
 - We take care to effectively separate our waste according to its source, groups and hazard classes.
- We know that using hazardous substances and chemicals only when necessary and as much as necessary will reduce both the negative effects on the environment and the amount of waste,
- We contribute to protecting nature by choosing materials with "recycling" and "environmentally friendly" labels in the materials we purchase in our business. We try to create reuse opportunities,
- We use disposable materials such as paper, napkins, toilet paper and packaging as much as necessary and take care to leave less waste to nature,
- We store wastes correctly, in separate areas according to their characteristics, deliver them to licensed/authorized companies without exceeding the legal storage time limits, and keep their records,
- We try to use water, energy and all natural resources economically. We share this sensitivity with our employees, guests and suppliers.
- We measure our performance in environmental management, monitor this data with targets and try to improve our performance.
- We aim to educate our employees about the environment and increase their awareness.
